

A template To Express your Concerns

Dear Elder Johnson,

In regard to Proposal 113-18G of the “Unity Oversight Committee”, I would like to voice my concern that the General Conference is increasingly developing centralistic power and control structures. If this proposal passes and is implemented, it has the potential to divide the Adventist church to a degree never seen before. I am convinced that the issue of ordaining women cannot be solved in this manner.

I ask you to do all that you can to ensure that the General Conference does not resolve controversial issues solely through exercise of power, but rather by finding convincing and differentiated solutions, thus avoiding a possible division of our church.
