# From the Pastor's heart

Happy Sabbath! It's June and personally, it is when I feel like summer has really started. Longer days and warmer weather, the vibrant green of the trees makes everything look like it's alive. And then those cool nights with a gentle breeze that always seems to call for deep and superfluous conversations, a call to slow down and take everything in.

Honestly, I would like to slow down myself, but there always seems to be something going on at the hilltop; schools planning end-of-year field trips, events, and graduations.

The beginning of June always feels like the true beginning of summer. With more sunshine and the hot climate, it invites us to slow down, breathe deeper, and enjoy life a little more.

Parks come alive with families picnicking under shady trees, and the scent of barbecue starts to linger in neighborhoods. Farmers markets buzz with fresh produce, flowers, and the hum of local musicians.

For many, it's a time to get outdoors—whether it's hiking a favorite trail, taking a spontaneous beach trip, or just relaxing on the porch with a good book. The air carries a different energy, filled with possibility and the gentle excitement of the season ahead.

June also brings the return of community festivals, outdoor movies, and backyard gatherings. It's the moment when school ends, routines shift, and spontaneity feels not only allowed but encouraged. It reminds us to welcome warmth, embrace change, and find joy in simple things. Whether you're traveling or staying close to home, it's the perfect time to hit pause, look around, and soak it all in.

**HAPPY BIRTHDAY** Today we send birthday blessings to Gerald Irrgang and Nikki Sydenham! Looking ahead to next week, we also celebrate with Massiel Davila-Ferrer, Deanna Irish, Kaiden Sydenham, Tricia Gabrys, Rylan Armson, Dale Carter, and Xzander Sydenham. May you feel God's love surrounding you, His peace guiding you, and His joy shining through the year ahead.

**DID YOU KNOW?** We don't actually hear with our ears—our ears are elaborate canals that transmit sound waves to the brain. Any interference along the way can distort what is ultimately "heard." Good hearing has a profound impact on life: it strengthens social interactions, family connections, workplace productivity. Hearing loss is not a stand-alone issue—it affects everything we do each day. Relationships are built on words. Learn how to protect your hearing, so you may age with grace, joy, and health. "Speak, for your servant hears." —1 Samuel 3:10–11 ~ Your Health Ministry Team
